

## Online Web Turnkey Packages

When should you consider an online turnkey business website customized to your specific wants and needs? You want to set up a stream of residual online income but don't have much time. Or, you don't particularly enjoy computer work. Either way, you can choose from the options below.

Set up right from the start with a smart web development blueprint and cutting-edge web marketing tools, your website draws free traffic and creates an ever-growing stream of residual online income.

So how does an online turnkey business website building process work? It's actually simple:

- **You fill out a preliminary questionnaire about your site's goals.**
- **We have a talk taking the time to find out (or define) your exact website needs and preferences.**
- **If we reach an agreement, you email us the desired content and images, if you have any.**
- **You get back to your business, day job, or leisure activities while we get busy with your online turnkey business website building for you.**

Of course, you get to review, amend, and approve our proposed design as the project moves ahead. When the job is done, we train you to update and grow your site with simple online tools anyone can use--no knotty technicalities are required. We continue to stay in touch helping you with valuable tips and guidance, if you need it.

### **Online Turnkey Business Website: Four 'Do-It-For-Me' Packages**

Want a 5 page starter site that allows for future growth? Go with the Silver Package, then. Or, maybe you want a basic site build around your experience or passion? The Gold Package is for you.

Perhaps you want an advanced site for your business or practice, to stay in touch with your customers or develop your client base -choose the Platinum Package in this case. Finally, if you'd like a fully monetized, e-commerce website that can retire you, Titanium Package is your best choice. Whatever it is, we can build it for you.

Unit 9A,  
1400 Bayly Street  
Pickering, Ontario
